Dear Delegates,

It gives us immense pleasure to invite you all for the upcoming Basic Bronchoscopy Workshop. Interventional Pulmonology has revolutionized the field of Pulmonary Medicine and is growing at a rapid pace. Current 'Basic Bronchoscopy' workshop aims at enhancing the skills of aspiring Pulmonologists regarding best practices in Flexible Bronchoscopy from basics.

This course is designed to provide you an in-depth understanding of the basic bronchoscopy techniques and its application in clinical practice. Through this course you will have the opportunity to learn from a team of experienced experts in the field of Interventional Pulmonology. You will also have the chance to participate in hands-on sessions where you will be able to practice the skills and techniques required to perform various procedures. During the workshop, participants will use animal models and mannequins to enhance their practical skills.

We Look forward to seeing you
